7 GAME SUMMARY

You always play as Cyclops against the vicious assaults of Juggernaut and Apocalypse! To win the game, you must win each stage, including a final victory on stage 5.

You begin the game with 3 lives. You lose an energy bar whenever you're hit by an enemy or an enemy object. You lose a life whenever your energy bar drops to zero. The GAME IS OVER if you lose all 3 of your lives.

However, you can recharge your energy! At the later part of each stage, the sun will appear! You can jump up to the sun to recharge to full energy! Don't miss this opportunity! You have just one chance to recharge on each stage!

Beginning in stage 3, an "X" mark will randomly appear along your path. Pick it up to release Weapon X—which is none other than your good pal Wolverine! Wolverine will appear for a short time and will automatically help you shred Juggernaut and Apocalypse!

ELECTRONIC

1 NEW WEAPON X

Wolverine, the adamantium clawed hero of the X-Men, has teamed up with Cyclops, a former deputy leader of the X-Men and now affiliated with X-Force. Cyclops is able to beam optic energy lasers from his eyes, which comes from storing energy he takes in from sunlight and starlight. They'll need all their power to beat the combined forces of Apocalypse and the 900 lb. force of the indestructible Juggernaut!

Juggernaut gained his tremendous size and strength from a mystical ruby he found in a cave that housed a lost temple called Cytorok. Whomever was to touch this ruby was to gain the super human strength and power of Juggernaut. Once he gained this strength, Juggernaut hurled the ruby into orbit so that no one could ever share or obtain the power.

Helping out Juggernaut against Cyclops and Wolverine is Apocalypse who is alive and kicking at full fury! Apocalypse can extend the length of his arms and legs to attack! He can also fire deadly cannibals!

So it's Cyclops and Wolverine against Juggernaut and Apocalypse—in a winner-take-all fight to the glorious finish!

2 INSERTING THE BATTERIES

To insert the batteries, remove the battery compartment cover at the back of the game. (To remove cover, push in direction of the arrow.) Insert two "AA" batteries, UM-3 or equivalent (not included), making sure to align "+" and "-" as shown. Do not use rechargeable batteries.

After battery insertion, the ACL switch may be pushed only if the game doesn't work properly. (Use a ball-point pen.) The display should appear as in the diagram below.

3 CAUTION

High temperature will destroy the unit. Do not leave unit in direct sunlight.

Do not use a pencil or pin to press the ACL switch. Use a ball-point pen.

Do not press the liquid crystal display and avoid heavy shock or the display may fail.

Clean only with a piece of soft dry cloth.

Replace batteries at the first sign of erratic operation.

4 THE OBJECT OF THE GAME

You always play as Cyclops. Direct the laser beams of Cyclops at any object to either move it or destroy it! The laser beams can also kill Apocalypse and stop the awesome movement of Juggernaut. On later stages, you can call on Weapon X (none other than Wolverine himself!) to help you on your life or death mission!

You win each stage by hitting Juggernaut a specified number of times. YOU WIN THE GAME by battling your way through all 5 stages of frenzied X-citements!

In stage 1, JUMP to escape Apocalypse's kicking! Also use your LASER BEAMS to attack him! But watch out! Apocalypse can extend the length of his arms and legs to attack you!

At the end of stage 1, Juggernaut appears and throws broken steel at you! FIRE YOUR LASER BEAMS TO DESTROY THE STEEL! Or JUMP up to get away! You can also pick up Weapon X, with a short time to attack Juggernaut with your beams! As you attack Juggernaut, he'll lose energy and will throw the steel more slowly!

Both you and Juggernaut have ENERGY BARS to record your energy levels. At the later part of each stage, the sun will appear! TAKE THIS CHANCE! JUMPING UP TO RECHARGE YOUR ENERGY TO FULL! When you've hit Juggernaut 7 times, you stop his movement and win stage 1!

Beginning in stage 2, you have the power of WOLVERINE! Use that Juggernaut throws at you and send it right back to attack him! Press the MOVE button and a DIRECTIONAL button at the same time! This can stop Juggernaut faster! When you've hit Juggernaut 12 times, you stop his movement and win stage 2!

In stage 3, Apocalypse will shoot cannonballs at you and Juggernaut will sneak up behind you and try to throw you into oblivion! Juggernaut will also try to punch you out! Use your LASER BEAMS to fight back—and also know when to jump clear of attack!

Beginning in stage 3, an 'X' FORCE will randomly appear on the floor. PICK it up to unleash Weapon X! Weapon X is your friend, Wolverine! Wolverine will use his claws to slash a short time—but he'll use that time to automatically try to claw his way through Juggernaut! When you've hit Juggernaut 14 times, you stop his movement and win stage 3!

In stage 4, Apocalypse will appear on the top right corner of the screen. It will fire cannonballs at you! It takes 1 hit to destroy a cannon! Holes will also appear along the floor—try clear of them! It takes 18 hits (with the help of Wolverine) to stop the movement of Juggernaut to win stage 4!

Stage 5 is the final stage! But it's the hardest! Juggernaut is hit strongest and it's hard to stop! Don't forget to pick up the 'X' to unleash Weapon X to help you! When you hit Juggernaut 21 times, you stop his movement once and for all—and win the game!
